Long Item Description

This 50mm Glass Lens Full-Size Refractor telescope is perfect for the beginning and novice astronomer to view the night sky or check out nature during the day. This telescope features a 1.5x Erect Image Lens, which allows it to be used as a Spotting Scope and Telescope All In 1 for observing both land objects and objects in the sky! Key Specifications: Objective/Aperture Size: 50mm, Focal Length: 600mm, (H-20 = 30x (with 1.5x Erect Image Lens = 45x), SR-4 = 150x (with 1.5x Erect Image Lens = 225x), Mount: Universal Camera Mount. High Optical Quality Coated Glass Lenses Accessories include: Pre-Assembled Full Size Adjustable aluminum Tripod (No Assembly required and it comes with an easy to use universal camera mount that can also be used with other camera brands and Spotting Scope brands when not using the Cstar TT-200 telescope), 2 Eye-Pieces (H-20, SR-4), 1.5x Erect Image Lens, 2 power Optical Finder-scope for low power scanning, and an accessory tray to store your unused accessories while viewing.

Specification Information	Key Features
	<p>Feature: 2x Finder Scope Benefit: Pre-attached Low Power (2x) finder-scope. A finder-scope is used to scan the night sky and locate objects you want to see with your main telescope eye-piece. The low power (2x) allows for a much wider field of view and easier targeting of objects.</p>
Product Specifications	<p>Feature: Optical System Benefit: Gives a clear image at an affordable price.</p>
	<p>Feature: 1.5x Erect Image Lens Benefit: Allows the scope to be used as a Spotting Scope and Telescope all in 1 for Daytime viewing and Nighttime sky viewing.</p>
	<p>Feature: Universal Camera Mount Benefit: Tripod comes with easy to use universal camera mount that allows use with the Cstar TT-200 telescope, as well as, other camera brands and Spotting Scope brands.</p>
